OFFICE MEMORANDUM

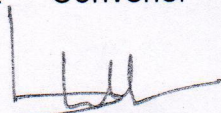

Subject: Constitution of Committee for Classification of Laboratory Spaces Based on Security Levels

In view of the enhanced security mandates communicated by CSIR Headquarters, it is imperative to classify the laboratory spaces within CSIO into distinct security zones—namely **High Security**, **Moderate Security**, and **Low Security** zones.

Security measures across these zones must be appropriately strengthened in alignment with the revised protocols. Additionally, it is essential to formulate a Standard Operating Procedure (SOP) outlining access control and permissions corresponding to each security level.

Accordingly, the following committee is hereby constituted to undertake the classification of laboratory spaces and develop the associated SOPs.
